The Regular Legislature.

AUGUSTA, ME., Jan. 24.-Everything in Augusta, Me., Jan. 24.—Everything in connection with the session of the legislature was quiet and orderly. The bill in relation to the State seal, the public records and docuted to determine whether the document should ments and to the duties of certain public officers was engrossed and passed. In the House the following resolution was introduced and

The Fusionists met in Union Hall, with their ranks considerably thinned, and with unmistakable signs of nervousness over the occurrence of events during the past twenty-four hours. The questions to be submitted to the Supreme court of the State, which had been laid over yesterday until Monday, were taken up and hastily agreed to. A resolution for taken up and hashiy agreed to. A resolution for a joint committee to prepare an address and ubmit the pending difficulties to Congress was offered but not acted upon. Mr. Ingalla, of Wiscasset, urged that the body hold together until an answer is returned by the Supreme Court.

tent of the Fusion organization of armed men, and what it was proposed to do. It is generally believed that the State authorities had reliable believed that the State authorities had reliable information of a proposed attempt to capture the State-house by force between the time of adjournment and the reassembling of the legislature on Monday, which was prevented by the prompt action of Governor Davis on Friday night. During the past few days the sale of rifles and revolvers to a considerable extent are reported from various quarters.

THE BANGOR ARSENAL.

Lieutenaut-Colonel Daniel White, commanding the First regiment of militia, went to Ban-ger with orders from Governor Davis to take charge of the State arsenal there, the officer in charge refusing to obey orders from any-body but Smith. The keeper refused to sur-render the arsenal, and Colonel White was telegraphed from here to use force if necessary. He is now in possession of the assenal and guarding the State property. Colonels Blood and Davis, of Smith's staff, recruited 200 men in Biddeford and Portland, and it is reported the arms were to be taken from this arsenal to arm them

REVOLUTIONISTS RECRUITED IN AUGUSTA. AUGUSTA, Jan. 25 .- Referring to the reports of a contemplated Fusion attack upon the rate-house it can be stated that the list of the company for this purpose cartsted in Augusta, and containing 160 names, has been obtained. Members of Static's staff had on-listed men in Biddsford and at Lewiston. Documentary and other evidence sustaining these statements will be brought before the legislative committee baying charge of the spicioch. The aggregate of the men raised for this purpose is about 2,500. The first orders that were issued by the Fusion Governor were to call out three companies of militia. The reports of Fusion movements were duly author-ticated to Mr. A. P. Gould, of Thomaston, who had been legal adviser of Governor Garcelon and had advised Smith to stand by his position as the following letter written by Mr. Gould to Mr. Smith on the promulgation of the decision of the court will show: A. P. GOULD'S OFINION.

A. P. GOULD'S OPINION.

THOMASTON, ME., January 4, 1880.

DEAR GOVERNOR: I am too sick to go to you.

The opinion is not worthy of respect. It is so partisan that all our people will denounce it. We might just as well have no constitution if this opinion is sound. I advise you to pay no attention to it it is not worthy of it. Let your action stand. The whole matter is now before the legislature. This opinion will then be properly examined and answored. Protest all who hold your summoness in their right to seals in the chambers of the House and Seade. I am too sick to write more, having been awake all night in pain.

Yours truly,

A. P. GOULD.

From all the evidences adduced the author.

From all the evidences adduced the authorities took the precautionary measures that have been taken.

Religious services were held at the Statehouse this afternoon, with preaching by the Rav. Mr. Tilden.

CONGRATULATIONS TO GOVERNOR DAVIS. Letters are constantly flowing in upon the Governor from legislatures, various organizations and leading men in different parts of the country, sending congratulations and uphold-ing the opinion of the court. He received today letters from the Governors of Illinois and

future. The document is as follows:

In the Citizens of Maine:

My attention has been called to the repeated assembling of armed bodies of men and military companies at the Capitol of the State, causing unaccessing ventlement and disturbing the public peace, and I deem it due to my fellow-citizens to delive them of the fact that this display of force a without any just cause, and serves to keep up excitement and divert attention from the revolutionary proceedings by which a party causin undertook to organize a State government. I have stready publicly declared and now repeat that the political party and friends with whom I act have at no time contemplated a resort to force to secure their rights. No force has been organized. None has been called for, nor have we had here at any time. We sely upon the Constitution and laws of the State and the nonest judgment of the people for the whilication of our cause. The police force, authorized by Governor Garcelon and placed under charge of the superintendent of public buildings for the protection of public property and the legislature had assambled and organized. Since that time all the forces, police and military have been under the control of the Republican organization without the precence of any force to oppose them and without any just grounds for imposing upon the credulity of the people. The lawful government of the State has been excluded from the State house in rough military parregation. The state-house is at the present imposing upon the credulity of the people. The lawful government of the State has been excluded from the State-house is at the present in the filled with armed mon, a Galling gun covers. To the Citizens of Maine:

the entrance, and the State is subjected to an expense of thousands of dollars daily for the purpose of maintaining this military show. It is proper that our people should consider these matters, and whether or not they are willing to countenance and support such high-handed outrages upon their liberties. Are they ready and willing to yield their rights as freemen and become slaves to the forces which are thus burdening them with taxtion and undermining and destroying their free institutions. I have no fear but that the housest and intelligent sentiment of our etizens will discountenance this military usurpation and austain the legal government in its efforts to restore peace and order and promote the welfare of the State.

Unclaimed Bounty Fund for Colored Soldiers.
To the Editor of The National Republican:

There are two companies of militia and a guished defenders. For it could not have been disguised to the most careless observer that, at the time the colored man was put into that, at the time the colored man was put into the effects of injuries sustained by the garry, the cause of the North was on the falling down an embankment while intoxicated. rifles and revolvers to a considerable extent are reported from various quarters.

THE STATE THEASURE.

The Fusion treasurer, White, still holds the key to the strong box, but has not yet, as far as known, assumed the responsibility of using the State funds. Gity Treasurer Haines, of Biddeford, is reported to have sent Mr. White \$22,000 of State taxes collected at Biddeford. It is expected that some action will soon be taken to remove Mr. White from the enstody of the State funds.

Now, I ask, what have the colored people received in return for their sacrificas? I will be told that they received their freedom and the ballot, but, in answer to that, I will say the former obtained for them undor the opprossive laws and public opinion of the South starvation, and the latter bullets and the rope, but no protection against rapine and murder; notwithstanding, Mr. Lincoln, in his proclamation of emancipation, stated that the whole army and navy should be used to protect the freedom and the ballot, but, in answer to that, I will say the former obtained for them undor the opprossive laws and public opinion of the South starvation, and the latter bullets and the rope, but no protection against rapine and murder; notwithstanding, Mr. Lincoln, in his proclamation of emancipation, stated that the whole army and navy should be used to protect the freedom and the ballot, but, in answer to that, I will be told that they received in return for their sacrificas? I will be told that they received in return for their sacrificas? I will be told that they received in return for their sacrificas? I will be told that they received in return for their sacrificas? I will be told that they received in return for their sacrificas? Now, I ask, what have the colored people freedmen in their rights. Congress, however, did pass two measures that were a great boon to the colored people, namely, the bill estab-lishing the Freedmen's Bank, and the one that gave bounties to all soldiers alike. The for-mer was ruined by bad management and rasmer was ruined by bad management and rescality, and the latter is in danger of being
squandered in salaries to the presidents and
professors of five colleges named in a bill now
pending before Congress. And I call upon the
colored people generally to take steps to prevent this money being misused, and that it may
become available for the benefit of the education of our colored youth only.

Now, the state of the case is just this: Congress passed a law giving beauties to colored

now proposed, in a bill before Congress, to invest the whole amount in four per cent. United States bonds, and divide them equally between Howard University, Hampton Normal School, Straight's University, New Orleans; Fisk University, Nashville, Tenn., and Atlanta Uni versity, Georgia—Institutions established prin cipally for the education of colored people and have done and are doing much good, and need all the cucouragement that can be given to them; but I hast that this money should not be placed in their hands, because I believe the lion's share will be spent in paying pro-fessors' salaries, while the students will get very little real benefit from it. There are ndreds and thousands of colored youths in eation and an opportunity to learn trades and become farmers, but have not the means to prosecute their studies. Therefore I would suggest that the money be funded and a board of trustees be appointed by Congress similar to the Peabody fund board, with power to purchase scholarships in agricultural and other colleges and normal schools already established, and apprenticeships from trades-men willing to learn colored boys trades, all men willing to learn colored boys trades, all of which shall be open to our colored youth, and to be obtained by competitive examination, provided, however, that children of decased or living colored soldiers should have the proference; and these acholar or apprenticeships to be held by those who may obtain them until they shall have completed their education, and that the beneficiaries may get assistance direct rather than be compelled to take what is doled out to them by college au-thorities, who, according to the bills now baore Congress, would have full power to expend t as they might see fit.

Now, if the powers that be will pass som ch measure as this we will be able with ulus to the children in the common schools to try and obtain these scholarships on the com-pletion of their school terms. I remain, sir,

Your obedient servant, January 22, 1880. A. T. Augusta, M. D.

The Sixty-Surgeons Bill. Commissioner Beatly occupied the time of the Senate Committee on Pensions for two and a half hours recently, in advocacy of his hill providing a new system for the settlement of pension claims—a measure so palpa-bly absurd in construction, so impracticable in execution and so devoid of merit as to be in-

capable of serious consideration or comment.

The bill proposed is a most pernicious one, that it is safe to assert that no Senstor or Representative who will take the trouble and pains to read it will for one moment hesitate to east his vote in opposition to its passage.

That something is radically wrong with the pension service everybody will admit. That 200,000 pending claims should at this late day be upon the files of the Pension Office awaiting action, with a force of about 400 mee at the command of the Commissioner of Pensions, is a matter that should receive serious consideration.

The difficulty with the pension service is not in the law; it is not in the present system for carrying the law isto execution, but it is in the absence of a proper organizing head, the want of a man of sufficient executive ability to advantageously manage the large force under his command, to discriminate between mee, and place each man in his between men, and place each man in his proper sphere.

WOMEN'S CHRISTIAN ASSOCIATION

Tenth Anniversary Exercises-Annual Report and Address.

The tenth anniversary of the Women's
Christian A-sociation was colclamated last night
at the New York avenue Presbyterian church.

at the New York avenue Presbyterian church.
Mr. Bradley read the annual report, which
stated that for ten years the need has been
felt for a sheltering roof, a ministering hand
and a cup of cold water for women, young
girls and helpless children. So far as we
have been able, substantial help as well as
Curistian sympathy has been afforded. To
those unacquainted with our work, salitary
instances are only known of women needing
Immediate assistance in times of temperaty immediate assistance in times of temporary Natress. To those ladies working under our auspices, the great pressure of ralls made upon them is only lightened by the satisfaction they have in being able to extend help in some on their arrival business was entered upon.

On their arrival business was entered upon.
Colonel R. O'S. Burke gave a clear and concise account of the efforts that culminated in the great compliment paid to the Irish people in the person of their representatives, in giving the hall of the House of Representatives, in giving the hall of the House for his address on the suffering in Iroland. At a subsequent stage in the proceedings a vote of thanks of the Irish people of the District of Columbia was carried with the wildest enthusiasm by the representatives there assembled.

Colonel Burke stated those members who were active in the obtaining of the hall of the proceedings in the obtaining of the hall of the columbia was carried to the columbia to the columbia was carried to the columbia was carried to col

is gratefully acknowledged.

Dr. Paxton thou made a few remarks, stating that it had been fully demonstrated that the association was no longer a temporary institu-tion. This much-needed charity should be placed upon as firm a footing as any other charity in the District. Its practical good work is second to none in the city. This city especially needs a place for destitute women and city. They are carried as the companion of and girls. They are continually coming here from other cities, looking for work or with claims against the Government, and soon becoming destitute, instead of being allowed on lead a life of shame they are protected and lead a life of shame they are protected and in a great many cases sent to their homes by the association. If the Chizens present would give to this theoriation the money that they give to indiscriminate beggers a vast deal of real good would be done. There is not one in a hundred of these persistent tramps who blockade our avenues who deserves or really needs charity. It is the business of this association to look into the antecedents of those to whom they give charity: cedents of those to whom they give charity; therefore, all who help the noble women who coudust the association may be sure that their money will be given to the deserving poor and needy. In concluding, Dr. Paxton paid a glowing tribute to woman as a Christian worker.

worker, A collection was then taken up for the benefit of the Wemen's Christian Association, and after another hymn the congregation was dismissed with benediction by Dr. Paxton.

The Suffering in Ireland.

LONDON, Jau. 25 .- A land meeting was held to-day in the Connemara mountains, at which several thousand persons attended. Messra, Davitt and Daly were present. There was also a land meeting at Bohola, at which there were 4,000 persons.

Hon, John Bright, speaking at Birmingham yesterday, reverted to the Irish question at length, and urged the government to take energetic action for the relief of the sufferers in The Lord Mayor of Dublin has issued an

appeal through the Loudon press in behalf of the Mausion House relief committee, stating that that committee is not connected with any other organization, and that it consists of carried with the wildest outhusiasm by the representatives there assembled.

Colonel Burke stated those members who were active in the obtaining of the ball of the House, naming among others, speaker Randall, Governor Young, Mr. Cox, Mr. Ford, of Missouri, General McCook, Colonel Butterworth, Hon. F. Wood, Mr. Kenna, Mr. O'Conner, of South Carolina, Mr. Frost, of Missouri, and Mr. Gillette, of Iowa. The mantion of these names elicited the most emphatic applause.

During Colonel Burke's statement it was amounced that adoputation from some genitemen in session in the basement of Caroli Hall had a message for the reception committee. The deputation was admitted, and its chairman stated that he was directed to see the reception committee in the interests of the reception committee in the interests of the reception of the manter of the reception committee in the interests of the card of the children, very little sickness has neveraled among the data deputation, and that it consists of those who, though poverty has delicated the reception of the matron, though the politics. The appeal states that there is sourcely a county in the desired and in which terrible privation does not exist in some portion, though it is mare severe in the western counties and on the northwest and southwest scaboards.
